COMPANY PROFILE

CIVIL ENGINEERING | BUILDING CONSTRUCTION | WATER INFRASTRUCTURE

Building Communities. Connecting Infrastructure. Enabling Access to Water.

P.O. Box 25547, Msakuzi, Kwembe Ward, Ubungo Municipal Council, Dar es Salaam, Tanzania

WELCOME TO HATUARISE

At HATUARISE VENTURES CO. LTD., we recognise that sustainable development depends on reliable infrastructure, well-constructed buildings and dependable access to water. Our business focus brings these essential areas together through civil engineering, building construction and water infrastructure solutions designed around practical project requirements.

We aim to approach every assignment with careful planning, responsible execution and attention to workmanship. Whether the requirement involves a building project, civil works, borehole-related infrastructure or water distribution systems, our focus is on understanding the project objectives and supporting their delivery through an organised and quality-conscious approach.

We value professional relationships, effective coordination and responsible use of resources throughout the construction process. By aligning our work with client requirements and applicable technical standards, we seek to contribute to infrastructure that serves communities, supports economic activity and delivers lasting value.

At HATUARISE, we are committed to building structures, developing infrastructure and supporting access to water through purposeful engineering and construction solutions.

COMPANY OVERVIEW

HATUARISE VENTURES CO. LTD. is a Tanzania-based company focused on civil engineering, building construction and water infrastructure development. The company's business direction encompasses essential construction and infrastructure activities that support residential, commercial, institutional and community development.

Our areas of focus extend from building and civil works to water-related infrastructure, including borehole development activities, water pipeline installation and water supply distribution systems, subject to the applicable technical requirements and project scope. This integrated approach enables us to address different infrastructure needs within a coordinated construction framework.

We recognise the importance of proper planning, workmanship, site coordination and responsible project execution in achieving dependable results. Our approach is centred on understanding client specifications, working within agreed project requirements and maintaining attention to quality, safety and efficient use of resources.

OUR FOCUS

CIVIL ENGINEERING | BUILDING CONSTRUCTION | WATER SUPPLY & INFRASTRUCTURES

OUR MISSION, VISION & CORE VALUES

OUR MISSION

To deliver dependable civil engineering, building construction and water infrastructure solutions through sound planning, quality workmanship, responsible project execution and a commitment to client requirements.

OUR VISION

To become a trusted name in civil engineering, building construction and water infrastructure, recognised for professional service, dependable project delivery and meaningful contributions to infrastructure development.

OUR CORE VALUES

01 — INTEGRITY

We value honesty, transparency and accountability in our professional relationships and project commitments.

03 — PROFESSIONALISM

We value discipline, competent coordination and respect for the requirements of each assignment.

05 — CLIENT FOCUS

We seek to understand client priorities and align our work with agreed expectations, project specifications and intended outcomes.

02 — QUALITY

We emphasise sound workmanship, appropriate materials and attention to technical specifications throughout project execution.

04 — SAFETY

We recognise the importance of safe working practices and responsible management of construction-site risks.

06 — TEAMWORK

We appreciate the role that reliable buildings, infrastructure and water access can play in supporting communities and economic activity.

OUR SERVICES

01. CIVIL ENGINEERING & INFRASTRUCTURE

Civil engineering works provide the foundation for functional buildings, accessible sites and dependable infrastructure. HATUARISE VENTURES CO. LTD. focuses on civil works that support land development, transportation access, stormwater management and the preparation of construction sites.

Our approach considers site conditions, approved drawings, material requirements and the intended use of each facility. By coordinating earthworks, concrete activities and supporting infrastructure, we aim to contribute to projects that are practical, durable and suited to their intended purpose.

Key Service Components

- ✓ Road Construction & Rehabilitation
- ✓ Drainage & Stormwater Management
- ✓ Earthworks & Site Preparation
- ✓ Concrete & Civil Structures
- ✓ Site Development & External Works
- ✓ Water-Related Civil Works

OUR SERVICES

02. BUILDING & CONSTRUCTION

HATUARISE VENTURES CO. LTD. focuses on building construction activities designed around the intended function, specifications and requirements of each development. From foundational works and structural construction to architectural finishes, our service scope is intended to support the creation of functional and well-coordinated building spaces.

We recognise that successful building projects require proper sequencing of activities, coordination between trades, suitable materials and careful attention to workmanship. Our construction approach therefore places emphasis on the relationship between structural integrity, practical functionality, finishing quality and the client's project objectives.

Key Service Components

- ✓ Residential Building Construction
- ✓ Commercial & Institutional Buildings
- ✓ Structural & Concrete Works
- ✓ Masonry & Roofing
- ✓ Building Finishes
- ✓ Renovation & Maintenance

OUR SERVICES

03. WATER SUPPLY, BOREHOLE & PIPED WATER INFRASTRUCTURE

Water infrastructure plays a critical role in community development, public services, residential settlements, agriculture and commercial operations. HATUARISE VENTURES CO. LTD. identifies water supply infrastructure as a key service area, covering the civil works and associated installations required to support the collection, conveyance, storage and distribution of water.

Our proposed service scope encompasses borehole-related development, water pipeline networks, pumping installations and storage facilities. The specific technical arrangements for each project should be determined by the water demand, source characteristics, approved design, site conditions and applicable regulatory requirements.

Key Service Components

- ✓ Borehole Drilling & Development
- ✓ Water Pipeline Installation
- ✓ Water Pumping Systems
- ✓ Water Storage Facilities
- ✓ Water Distribution Networks
- ✓ Water Project Civil Works

WHY CHOOSE HATUARISE

At HATUARISE VENTURES CO. LTD., we recognise that every project requires a clear understanding of its objectives, careful coordination and a commitment to delivering work in accordance with agreed requirements. Our approach is centred on practical solutions, responsible execution and the value that well-planned construction and infrastructure can create for clients and communities.

01. Integrated Service Approach

Our focus across civil engineering, building construction and water infrastructure provides a coordinated framework for addressing different project requirements

02. Solutions Aligned With Project Needs

We place importance on understanding project specifications, site conditions and intended outcomes before determining the appropriate approach to the work

03. Focus on Quality & Specifications

Attention to approved drawings, material requirements, workmanship and relevant technical standards forms an important part of our project delivery approach.

04. Safety-Conscious Execution

We recognise the importance of site safety, hazard awareness and responsible working practices in construction and infrastructure activities.

05. Client-Focused Coordination

We value clear communication, professional relationships and coordination that keeps project expectations, responsibilities and priorities understood.

06. Commitment to Lasting Value

We aim to support the delivery of functional buildings and infrastructure that serve their intended purpose through appropriate construction methods and attention to durability.

OUR COMMITMENT

We aim to build confidence through responsible project execution, clear communication and a consistent focus on the requirements of every assignment. For HATUARISE, success means contributing to projects that meet their intended objectives and create practical value for the people who use them.

OUR CLIENTS & MARKET SECTORS

HATUARISE VENTURES CO. LTD. positions its services to address construction and infrastructure requirements across public, private, commercial and community-oriented projects. Our areas of focus are relevant to organisations and individuals seeking solutions for building development, civil works, water supply infrastructure and associated construction activities.

We recognise that different clients operate under different technical specifications, procurement procedures, budgets and delivery expectations. Our approach is therefore centred on understanding the scope of each assignment and aligning the proposed services with its particular requirements.
